The Evergreen Cooperatives of Cleveland, Ohio, are pioneering models of job creation, wealth building, and sustainability. Evergreen's employee-owned, for-profit companies are based locally and hire locally. They create meaningful green jobs and keep precious financial resources within Cleveland's Greater University Circle neighborhoods. Worker-owners at Evergreen earn a living wage and build equity in the firms as owners of the business.

Evergreen-inspired community wealth building strategies are now underway in many U.S. cities, including Atlanta, Washington, D.C., Pittsburgh, and Amarillo.
